We maintain strong respect and trust in the industry and operate with high ethical standards and integrity.

### How Athena Can Help

In today's environment of transformational healthcare change, payers and providers need timely insight into industry developments and actionable strategies to address challenges. At Athena Group Consulting, we have the expertise to help healthcare entities meet the challenges of the future. We work closely with plans, providers, and risk-bearing entities on licensing with state regulators (i.e., California DMHC), risk strategies (movement to risk and more risk), strategic planning, value-based and risk-based contracting, market expansion strategies, network development, contract review and analysis, IPA development, and interim executive.

- Licensing with State Regulators (i.e., California DMHC)
- Managed Care Strategy
- Strategic Planning
- Value Based & Risk-Based Contracting
- Market Expansion Strategies
- IPA & Network Development
- Advisory Board

We can provide value-added insight on the strategic and operational elements that impact you most. Organizations need the support of experienced professionals to navigate strategic planning, complex contracts, and uncertainty in the near term.
