

Executive Profile

Lori Hack

Lori Hack is a highly esteemed leader in health care delivery and operations, boasting over 30 years of experience in hospital, clinic, and health plan management. As the CEO of Object Health, LLC, she excels in developing, evaluating, and improving health care programs. Her expertise has been crucial in preparing community clinics and providers for Patient-Centered Medical Home (PCMH) and Accountable Care Organization (ACO) certifications. She further assists Independent Provider Associations (IPAs) and health plans with regulatory filings and compliance.

Ms. Hack's extensive career includes significant contributions to state-level clinical integration initiatives, focusing on Electronic Health Record (EHR) implementation, business intelligence analysis, and operational workflow planning. Her knowledge in compliance, privacy, and security of health information is comprehensive, and she has played a key role in advancing health information exchange throughout the state. Her work in payer and provider contracting has led to the creation of large health plans and IPAs nationwide.

In her roles beyond Object Health, Lori has actively participated in and coordinated various public and private sector boards, including the California Privacy and Security Advisory Board. Recently, she was elected to the Board of the Mark Twain Health Care District, reflecting her influence in rural health care policy and governance.
